1		Special Instructions (KCDA: 1)  <b>Item Notes:</b> Special Instructions: KCDA is owned by the public school districts in the state of Washington which encompass more than 1,000,000 students. In addition, KCDA has members that include cities, counties, schools, state agencies and other political subdivisions not only in Washington State but in Alaska, Arizona, Idaho, Illinois, Massachusetts, Minnesota, Montana, Nebraska, Oklahoma, Oregon, Pennsylvania, Texas and Wisconsin. KCDA total purchase volume for all products, equipment and services will exceed \$80,000,000 for 2007. KCDA is requesting pricing on the Interactive Technology products and equipment listed but also requesting discounts on a manufacturer's entire product line. Please include with your bid as an attachment any discounts for manufacturer's products and equipment price list you represent. This will allow KCDA to supply its members with a myriad of products but also allow them access to any new products that come out after the contract is in place.	1 - 1.0000 Each Purchase	1		No

165		Installation and Instruction manuals package (Electrocom: 1.1 & 1.2) <b>Item Notes:</b> 1.1 INSTALLATION AND SYSTEM MANUALS 1. Installation and start up of the system shall be under the direct supervision of a local contractor regularly engaged in installation, repair, and maintenance of such systems. The contractor shall be accredited by the proposed equipment manufacturer, and be prepared to offer a service contract for system maintenance on completion of the guarantee period. 2. The contractor providing the equipment shall be responsible for providing all specified equipment and mentioned services for all equipment as specified herein. The contractor must be a local authorized distributor of all specified equipment for single source of responsibility and shall provide documents proving such. The contractor must provide written proof that they are adequately staffed with factory-trained technicians for all of the specified equipment. The contractor must be an established business, and currently provide all services for the equipment to be provided for a minimum of three years. 3. The contractor shall guarantee availability of local service by factorytrained personnel of all specified equipment. On-the-premise maintenance for the entire system shall be provided at no cost to the owner for a period of two years (parts and labor) from date of acceptance unless damage or failure is caused by misuse, abuse, neglect, or accident. Additionally, all manufacturer supplied products for the integrated telecommunications/intercom system head-end must be covered by a five year (parts only) limited warranty from the date of acceptance. The warranty period shall begin on the date of acceptance by the owner. 4. The contractor shall, at the owner's request, make available a service contract offering continuing factory authorized service of the system after the initial warranty period. 1.2 INSTRUCTION AND SYSTEM MANUALS 1. Time shall be included in the bid for instruction of the school personnel designated by the owner as to the correct operation of the system. 2. Owner's maintenance personnel shall be trained in the procedures and schedules involved in operating, troubleshooting, servicing, and preventative maintenance of the system. Provide a minimum of four hours training. 3. Upon completion of the installation, the contractor shall furnish the owner with three system operation manuals. 4. Operational guidelines shall be given in written form in sufficient numbers so that all key personnel have operational instructions of programming, station use, and special features. Copies of these instructions shall be provided for permanent record in the operations and maintenance manuals. LABOR PER HOUR FOR INSTALLATION:	1 - 1.0000 Each Purchase	1	95.0000	No
