F) Virco Core-A-Gator Folding Tables

The extruded aluminum frame makes it superior to lightweight tables that rely on wooden inserts for structural strength. The frame is far stronger than any wood and has better mechanical properties, it's more easily shaped into forms that match the contours of round tables. The frame delivers full perimeter reinforcement, enabling round shapes to perform as well or better than rectangular tables. ABS plastic tops, light weight locking folding legs, 29" high. Virco, No Substitute.
