

## KCDA PROCUREMENT POLICY

KCDA is governed by procurement laws governing school districts in Washington. The basic statute authorizing the formation of KCDA is RCW 28A.320.080. KCDA is also authorized under the Interlocal Cooperation Act, RCW 39.34. The basic procurement law for school districts is RCW 28A.335.190.

As KCDA has grown, many other types of public entities have become members. As many of these organizations have differing procurement requirements, KCDA has adapted our procedures to satisfy the legal requirements, both in advertising and bidding, of all of our members.

All items and services under contract with KCDA have been awarded through a competitive sealed bid process, with contract, bid and advertising documents posted on our website.
