No Service Fees

KCDA is currently in the process of converting all of our vendor direct contracts to a zero percent service fee. Under this new structure, KCDA will bill you at the contract price when the project is complete with no service fee added to the invoice. KCDA will then collect a fee from the vendor. Since our contracts are awarded throughout the year, this will be a rolling change. We have already transitioned several of our contracts to the new model including Furniture, Interactive Technology, Portable Buildings, Roofing, Playground Equipment, Ground Traffic Control Systems, Track & Field, Athletics, Technology, Copiers, and Printers.
