

# THE DOCTOR'S CHOICE

#1 Brand Recommended by Allergists<sup>2</sup>

**Certified HEPA**  
Captures up to  
**99.97%**  
of microscopic allergens<sup>1</sup>

## HEPA Air Purifier

### **CERTIFIED HEPA CAPTURES UP TO 99.97% OF MICROSCOPIC ALLERGENS, 0.3 MICRONS AND LARGER<sup>1</sup>**

- Captures harmful particles such as dust, pollen, pet dander, dust mite debris and smoke<sup>1,6</sup>
- Also reduces up to 99.9% of certain bacteria, mold spores and viruses<sup>1,3</sup>

### **HELPS REDUCE ODORS AND VOCs**

- Activated carbon pre-filter helps reduce common household odors, VOC's and certain gases while trapping particles such as dust, lint, fibers & pet fur<sup>4</sup>

### **5 ROOM AIR CHANGES PER HOUR<sup>5</sup>**

### **EASY TAP ELECTRONIC CONTROLS**

- 4 air cleaning levels: Germ, Allergen, General Clean and Turbo
- Auto shut-off timer; 2, 4 or 8 hours
- Electronic filter replacement indicators

### **QUIET PERFORMANCE**

### **ENERGY STAR QUALIFIED**

### **RECOMMENDED FOR EXTRA LARGE ROOMS UP TO 465 SQ.FT.**

### **5 YEAR LIMITED WARRANTY**

### **HPA300: BLACK**

HPA300

**Honeywell**

HPA300

## PRODUCT SPECIFICATIONS:

Country of origin: China

127 watts (Turbo speed), 120 volts, 60Hz

AHAM Verifide<sup>®7</sup>:

- Smoke CADR: 300
- Dust CADR: 320
- Pollen CADR: 300
- Room Size: 465 sq.ft. (21' x 22')

## REPLACEMENT FILTERS:

	Odor Reducing Pre-filter, A	HEPA filter, R
Unit Requires	1	3
Filter Life	3 months	1 year
Single Pack (1 year supply)	<b>HRF-A300</b> (4 pre-cut filters)	<b>HRF-R3</b> (3 filters)
Kit pack (1 year supply)	<b>HRF-ARVP300</b> (4 pre-cut filters & 3 HEPA filters)	

Model	QTY	Dimensions (L" x W" x H")	Weight (lbs.)	Cu. Ft.	UPC/ITF

<sup>1</sup> From the air that passes through the filter, 0.3 microns and larger. Overall particle reduction depends on many factors including the amount of air processed, the pollutant type and the pollutant introduction rate into the environment. <sup>2</sup> Based on March 2018 Cascade Survey Research results reporting 48 out of 70 (69%) surveyed Allergists that recommend a brand of portable air purifiers to their patients, recommend "Honeywell" air purifiers as their first choice. <sup>3</sup>Based on independent testing, report 101000573COL-001. Results are based on the testing of the reduction of the following bacteria, mold and viruses in the air after 30 minutes of use, operated at the Turbo (high) setting: Bacteria: E. Coli – 99.9%, Mold: A. pullulans – 99.9%, Virus: M2 – 99.9%. <sup>4</sup>When operated with the odor reducing pre-filter. Replace every 3 months.. <sup>5</sup>Based on 3<sup>rd</sup> party independent CADR testing for the smoke CADR value, when operated at the turbo level. Air changes per hour calculations are based on the smoke CADR value x 60 minutes divided by the listed room volume (LxWxH) assuming an 8ft ceiling. Air circulation depends on many factors, such as room size and configuration. There is no guarantee that all of the air in a room will pass through filter. <sup>6</sup>The U.S. EPA defines harmful particles as those 2.5 microns and smaller. <sup>7</sup>Independently tested then verified through AHAM certification program to perform according to manufacturer's claim for reduction of smoke, dust & pollen in recommended room size.

This product earned the ENERGY STAR by meeting strict energy efficient guidelines set by the US EPA. US EPA does not endorse any manufacturer claims of healthier indoor air from the use of this product
