Product Description

3M™ Gum Remover is a ready-to-use clear liquid, formulated to help remove gum from carpeting easily and completely with no sticky residue.

Special Features

- Removes gum completely leaving no sticky gum residue
- Effective on other tough contaminants such as adhesive residue and candle wax
- No rinsing necessary

Applications

- Commercial and residential carpets
- Most carpet fibers (nylon, polyester, olefin, wool, and blends)
- Most carpet styles (loop or cut piles)
- Safe for use on stain resistant nylon fibers
- Upholstery fabrics that can be safely cleaned with water

Packaging

- 8-ounce plastic bottle
- Six bottles per case

General Use Directions

NOTE: If the gum is heavily embedded with soil on the surface, wet a cloth with a small amount of gum remover and blot the dirt from the gum before applying the liquid. This will prevent the soil spreading into the surrounding carpet.

1. Wet the entire surface of the gum wad with the gum remover liquid.
2. Allow at least 1 minute for the product to soften the gum.
3. Use a dull spatula, spoon, or butter knife to pull from the outside edges of the gum wad towards the center and lift the gum wad from the carpet.
4. Reapply gum remover to the remaining stain after removing the bulk of the gum wad.
5. Allow at least one minute for the product to work.
6. Use the blunt tool to scrape across the carpet surface to remove the remaining gum.
7. Blot the carpet area with a clean white cloth or paper towel.

NOTE: Scraping carpeting with a sharp tool can cut and damage the carpeting permanently.

Health and Safety

CAUTION
