

# **SAFETY DATA SHEET**

Elmer's Disappearing Purple Glue Stick

# Section 1. Identification

| OSHA/HCS status                  | • While this material is not considered bazardous by the OSHA Hazard Communication  |
|----------------------------------|---|
| Section 2. Hazar                 | rds identification  |
| number (with hours of operation) | CHEMTREC (Outside the U.S.) +1-703-527-0585   |
| Emergency telephone              | 1-800-346-3278<br>: CHEMTREC (U.S. and Canada) 1-800-424-9300   |
| Manufacturer                     | Sanford, L.P.<br>6655 Peachtree Dunwoody Road<br>Atlanta, GA 30328  |
|                                  |   |
| Uses advised against             | Adhesive.   |
| Relevant identified uses of      | of the substance or mixture and uses advised against  |
| Product type                     | : Solid.  |
| Other means of identification    | <ul> <li>Elmer's Washable School Glue Sticks Disappearing Purple<br/>E1558, E1559, E1560, E1591, E513, E514, E520, E522, E523, E524, E543, E558,<br/>E605, E562, E578, E60520, E64523, 61665, 61666Q, 61667, 61668, 61669, 62428,<br/>2014772, 2091802, 2129028, 2159542, 2136613, 2136614, 2136694, 2143884,<br/>2141472, 2141425, 2164359, 2141682</li> </ul> |
| Product code                     | : E1558, E1559, E1560, E1591, E513, E514, E520, E522, E523, E524, E543, E558, E605, E562, E578, E60520, E64523, 61665, 61666Q, 61667, 61668, 61669, 62428, 2014772, 2091802, 2129028, 2159542, 2136613, 2136614, 2136694, 2143884, 2141472, 2141425, 2164359, 2141682   |
| GHS product identifier           | : Elmer's Disappearing Purple Glue Stick  |

| OSHA/HCS status                            | : While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product. |
|--|--|
| Classification of the substance or mixture | : Not classified.  |
| GHS label elements                         |  |
| Signal word                                | : No signal word.  |
| Hazard statements                          | : No known significant effects or critical hazards.  |
| Precautionary statements                   |  |
| Prevention                                 | : Not applicable.  |
| Response                                   | : Not applicable.  |
| Storage                                    | : Not applicable.  |
| Disposal                                   | : Not applicable.  |
| Hazards not otherwise classified           | : None known.  |

## Section 3. Composition/information on ingredients

| Substance/mixture             | : | Mixture   |
|-------------------------------|---|---|
| Other means of identification | : | Elmer's Washable School Glue Sticks Disappearing Purple<br>E1558, E1559, E1560, E1591, E513, E514, E520, E522, E523, E524, E543, E558,<br>E605, E562, E578, E60520, E64523, 61665, 61666Q, 61667, 61668, 61669, 62428,<br>2014772, 2091802, 2129028, 2159542, 2136613, 2136614, 2136694, 2143884,<br>2141472, 2141425, 2164359, 2141682 |

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified and hence require reporting in this section.

#### Section 4. First aid measures

#### Description of necessary first aid measures Eye contact : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs. Inhalation : Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours. Skin contact : Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. Ingestion : Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

#### Most important symptoms/effects, acute and delayed

| Potential acute health effects |  |  |
|--------------------------------|--|--|
| Eye contact                    | No known significant effects or critical hazards.  |  |
| Inhalation                     | No known significant effects or critical hazards.  |  |
| Skin contact                   | No known significant effects or critical hazards.  |  |
| Ingestion                      | No known significant effects or critical hazards.  |  |
| Over-exposure signs/symptoms   |  |  |
| Eye contact                    | No specific data.  |  |
| Inhalation                     | : No specific data.  |  |
| Skin contact                   | No specific data.  |  |
| Ingestion                      | No specific data.  |  |
| Indication of immediate medic  | al attention and special treatment needed, if necessary  |  |
| Notes to physician             | In case of inhalation of decomposition products in a fire, symptoms may be delayed.<br>The exposed person may need to be kept under medical surveillance for 48 hours. |  |

|                     | The exposed person may need to be kept under medical surveillance for 48 ho |
|---------------------|---|
| Specific treatments | : No specific treatment.  |

**Protection of first-aiders** : No action shall be taken involving any personal risk or without suitable training.

#### See toxicological information (Section 11)

#### Section 5. Fire-fighting measures

| Extinguishing media            |   |
|--------------------------------|---|
| Suitable extinguishing media   | : Use an extinguishing agent suitable for the surrounding fire. |
| Unsuitable extinguishing media | : None known.   |

## Section 5. Fire-fighting measures

| Specific hazards arising from the chemical     | : No specific fire or explosion hazard.   |
|--|---|
| Hazardous thermal decomposition products       | : Decomposition products may include the following materials:<br>carbon dioxide<br>carbon monoxide<br>nitrogen oxides<br>metal oxide/oxides   |
| Special protective actions for fire-fighters   | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.                         |

## Section 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

| For non-emergency<br>personnel | : | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Put on appropriate personal<br>protective equipment. |
|--------------------------------|---|--|
| For emergency responders       | : | If specialized clothing is required to deal with the spillage, take note of any information<br>in Section 8 on suitable and unsuitable materials. See also the information in "For non-<br>emergency personnel".   |
| Environmental precautions      | : | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains<br>and sewers. Inform the relevant authorities if the product has caused environmental<br>pollution (sewers, waterways, soil or air).  |

#### Methods and materials for containment and cleaning up

| Small spill | <ul> <li>Move containers from spill area. Vacuum or sweep up material and place in a<br/>designated, labeled waste container. Dispose of via a licensed waste disposal<br/>contractor.</li> </ul>  |
|-------------|--|
| Large spill | : Move containers from spill area. Prevent entry into sewers, water courses, basements<br>or confined areas. Vacuum or sweep up material and place in a designated, labeled<br>waste container. Dispose of via a licensed waste disposal contractor. |

## Section 7. Handling and storage

#### Precautions for safe handling

| Protective measures<br>Advice on general<br>occupational hygiene   | <ul> <li>Put on appropriate personal protective equipment (see Section 8).</li> <li>Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.</li> </ul>   |
|--|--|
| Conditions for safe storage,<br>including any<br>incompatibilities | : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use. |

## Section 8. Exposure controls/personal protection

#### Control parameters

#### **Occupational exposure limits**

None.

**Biological exposure indices** 

No exposure indices known.

| Appropriate engineering controls   | : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.  |
|------------------------------------|---|
| Environmental exposure<br>controls | : Emissions from ventilation or work process equipment should be checked to ensure<br>they comply with the requirements of environmental protection legislation. In some<br>cases, fume scrubbers, filters or engineering modifications to the process equipment w<br>be necessary to reduce emissions to acceptable levels.  |
| ndividual protection meas          | ures  |
| Hygiene measures                   | : Wash hands, forearms and face thoroughly after handling chemical products, before<br>eating, smoking and using the lavatory and at the end of the working period.<br>Appropriate techniques should be used to remove potentially contaminated clothing.<br>Wash contaminated clothing before reusing. Ensure that eyewash stations and safety<br>showers are close to the workstation location. |
| Eye/face protection                | : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.   |
| Skin protection                    |   |
| Hand protection                    | <ul> <li>Chemical-resistant, impervious gloves complying with an approved standard should be<br/>worn at all times when handling chemical products if a risk assessment indicates this is<br/>necessary.</li> </ul>   |
| Body protection                    | <ul> <li>Personal protective equipment for the body should be selected based on the task being<br/>performed and the risks involved and should be approved by a specialist before<br/>handling this product.</li> </ul>   |
| Other skin protection              | <ul> <li>Appropriate footwear and any additional skin protection measures should be selected<br/>based on the task being performed and the risks involved and should be approved by<br/>specialist before handling this product.</li> </ul>   |
| Respiratory protection             | : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.  |

# Section 9. Physical and chemical properties and safety characteristics

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

| Appearance   |  |
|--|--|
| Physical state   | : Solid. [Solid.]  |
| Color  | : Purple. Lightens in contact with air and light. [Dark]                   |
| Odor   | : Mild.  |
| Odor threshold   | : Not available.   |
| рН   | : 9 to 11  |
| Melting point/freezing point                                   | : Not available.   |
| Boiling point or initial<br>boiling point and boiling<br>range | : Not available.   |
| Flash point  | : [Product does not sustain combustion.]                                   |
| Date of issue/Date of revision                                 | : 11/7/2024 Date of previous issue : No previous validation Version : 0.01 |

# Section 9. Physical and chemical properties and safety characteristics

| Flammability                                       | : Not available.   |
|--|--|
| Lower and upper explosion limit/flammability limit | : Not applicable.  |
| Vapor pressure                                     | : Not available.   |
| Relative vapor density                             | : Not applicable.  |
| Relative density                                   | : Not available.   |
| Solubility in water                                | : Not available.   |
| Partition coefficient: n-<br>octanol/water         | : Not applicable.  |
| Auto-ignition temperature                          | : Not applicable.  |
| Decomposition temperature                          | : Not available.   |
| Viscosity  | : Dynamic (room temperature): Not available.<br>Kinematic (room temperature): Not available.<br>Kinematic (40°C (104°F)): Not available. |
| Particle characteristics                           |  |
|  |  |

Median particle size

: Not available.

## Section 10. Stability and reactivity

| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients.           |
|------------------------------------|--|
| Chemical stability                 | : The product is stable.   |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.                      |
| Conditions to avoid                | : No specific data.  |
| Incompatible materials             | : No specific data.  |
| Hazardous decomposition products   | : Under normal conditions of storage and use, hazardous decomposition products should not be produced. |
|                                    |  |

### Section 11. Toxicological information

#### Information on toxicological effects

```
Acute toxicity
Not available.
```

#### Irritation/Corrosion

Not available.

Respiratory or skin sensitization Not available.

Mutagenicity

Not available.

Carcinogenicity Not available.

Reproductive toxicity

Not available.

**Teratogenicity** 

Not available.

Acute toxicity estimates

N/A

## Section 12. Ecological information

#### **Toxicity**

Not available.

coefficient (Koc)

## Persistence and degradability Not available. **Bioaccumulative potential** Not available. **Mobility in soil** Soil/water partition : Not available.

Other adverse effects : No known significant effects or critical hazards.

## Section 13. Disposal considerations

| Disposal methods | : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. |
|------------------|--|
|------------------|--|

## Section 16. Other information

Hazardous Material Information System (U.S.A.)

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings and the associated label are not required on SDSs or products leaving a facility under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered trademark and service mark of the American Coatings Association, Inc.

The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual.

#### National Fire Protection Association (U.S.A.)

#### Procedure used to derive the classification

Not classified.
