## **AEPA Benefits KCDA Members**

KCDA is a founding member of the Association of Educational Purchasing Agencies (AEPA) and actively participates on its Board of Directors and on multiple committees. Why does KCDA play such an active role in AEPA? In short, the answer is to drive additional value for our members.

One way AEPA adds value is through leveraging national contracts. AEPA leverages the buying power and volume leverage of purchasing agencies representing 30 states to offer you the best available national contracts yielding significant purchasing savings. In fact, AEPA recently reported calendar year 2023 sales of \$1,023 million – breaking the \$1 billion sales level for the first time in its history! That \$1 billion dollars in sales represents significant volume leverage with vendors across 30 states which KCDA could not reach on its own.

Another way AEPA brings value to members is through ensuring legal requirements at a state level. AEPA is comprised of lead agencies and category committees that develop bid terms, specifications, and evaluation procedures into a formal bid document. These category-specific terms are supplemented with hundreds of pages of terms and conditions from each of the participating state agencies to ensure that state public procurement legal requirements are included. Each of the AEPA member agencies places bidding advertisements in publications within their jurisdictions to encourage competitive submissions and comply with their state laws. AEPA's contract award recommendations are then further reviewed by KCDA contract and procurement specialists and presented to KCDA's Board of Directors for final bid award.

AEPA contracts are also an efficient use of limited resources. For example, KCDA's Director of Procurement, Thomas Kim, sits on three bid committees - HVAC systems, roofing, and portable and modular classrooms. Other state agencies are easily able to leverage the work of Thomas and his committees without duplicating the effort. Similarly, KCDA and our members greatly benefit from the work of other state agencies who manage various other contract categories which KCDA adopts.

AEPA contracts are also a great way to bring new technologies to our members. Recent examples include AEPA's Technology Buyback contract where schools can receive funds for aging or obsolete technology hardware and AEPA's Electric Vehicle Charging Stations contract which has seen early exploratory interest in the Pacific Northwest.

Additionally, KCDA is able to devote its procurement resources to categories to best meet the needs of its members. In many cases, KCDA manages its own bid solicitations when a locally bid contract might better serve our members. For example, KCDA has several excellent vendors in the modular classroom, playground equipment, furniture, and flooring categories that either better meet local codes or provide better installation services than might be available nationally. Ultimately, this gives our members better value when total cost of ownership is evaluated.

KCDA is a proud member of AEPA and has managed hundreds of millions of dollars under its contracts since AEPA's founding in 2000. AEPA's motto of "Nationally Bid, Locally Awarded" encapsulates the advantages of having both AEPA and KCDA developed contracts available and ready for your use.

## CUSTOMER SERVICE CORNER

### *Check Out Your Open Cart Reminder*

Every September, KCDA will get calls from members checking on the status of their orders. Upon reviewing, we discover that the order was created, but the cart was not “checked” out. If you use Skyward, you need to “punch” out your order.

Please remember to check out your active carts to avoid delays in receiving your back-to-school orders. This will help insure that KCDA has adequate stock on hand to fill your orders for the start of the year.

KCDA will schedule your order to deliver according to the delivery date requested when you check out your cart. August is our busiest time and delivery times fill up fast. If you could take receipt of your order in June or July, this is a less hectic time for us and shipping companies.

### *Receiving Your KCDA Order*

Please check your carton count when you receive your order using the included packing slip. If your packing slip is missing, please call KCDA Customer Service, and we can send you a new copy.

When you are checking your supplies, please look for shortages, overages, or damage, and make notes of any issue on the freight carriers delivery receipt (Bill of Lading). Please contact KCDA directly so that we can fulfill your order.

KCDA accepts returns at no charge within twenty business days of receipt or by September 30th for Summer deliveries. Returns requested after these deadlines will be charged return freight and a 10% restocking fee. Expired products are not eligible for return. KCDA only considers returns that are supported by KCDA records and paperwork.

## NEW AND UPDATED CONTRACTS

For more than 80 years, KCDA has been a leader in providing centralized procurement services. Every dollar spent using our contracts increases our purchasing power and helps us get lower pricing. We are governed by the basic laws and regulations that apply to our members so you can be assured that our contracts are safe, legal, and compliant.

## FROM OUR MARKETING DEPARTMENT

### Welcome, Summer Break!

Congratulations on soon completing the 2023-2024 school year!

As you look forward to the start of summer, you are probably working hard to finalize, among many other things, your supply orders for the beginning of next school year. You may have learned about our Student Supply program from one of our Field Representatives and worked with a Customer Service Representative to receive a quote or place an order. You may have submitted Fall Startup or Scheduled Delivery forms to schedule your August or September startup or copy paper deliveries. Thank you for your diligent work in price shopping, coordinating head counts by grade and/or classroom, and for submitting orders early for processing.

KCDA is hard at work making sure you will have what you need and when you need it for the start of the 2024-2025 school year. Our Customer Service Representatives are entering your orders to give our Procurement team the best lead time possible to build and maintain inventory levels to fill your orders on time. Our Warehouse operations team will also be hard at work this summer picking, packing and preparing your orders to hit the ground running with deliveries when you return to office.

If you work on the Capital Projects side of purchasing, you may be gearing up for summer projects and coordinating with vendors from one of our direct-ship vendor contracts. As the new school year begins, and as your budgets get ironed out, keep our Vendor Expo in mind for any future projects you're planning.

Our **Vendor Expo, which will be held Thursday, September 26, 2024**, will be a great opportunity to interact with about 40-50 awarded contract vendors across multiple categories to learn about services available for your capital projects and facility needs. Save the date!

Thank you for all you do for your school district and thank you for being a KCDA member.

We look forward to supporting you in the fall, and hope you have a great summer.
