Promethean's next-generation interactive panel delivers our most robust, seamless, and secure user experience yet.

With its secure roaming profiles, streamlined connection to your content, flexible lesson delivery systems, and myriad ways to personalize the user experience, ActivPanel 9 offers everything you need to revolutionize how you teach and transform how students learn.

ActivPanel 9

Connectivity

Roaming profiles let teachers access, share, and save their content quickly and easily, either on their device or in the cloud.

- Navigate your panel with an intuitive remote so you can move around the classroom freely
- Work seamlessly with educational platforms like Google Classroom and Microsoft Teams
- Access your content and customizations from any ActivPanel 9 with your roaming profile
- Connect your device directly to the panel with one cable for your audio, video, and data

Security

With enhanced security and sign-in options, teachers and IT administrators can rest assured that personal data will be kept safe and confidential.

- Create a Promethean account using your Microsoft or Google credentials for additional security
- Keep your personal data private within your Promethean account, not on the panel
- Install security updates through remote panel management
- Lock your panel quickly and easily when you need to be away for a short time
- Sign out of your panel from anywhere, ensuring your data is kept safe

Simplicity

An intuitive interface, user-friendly design, and easy customization capabilities allow teachers to focus on teaching, not technology.

- Create a Promethean account that you can access from anywhere
- Sign into your Promethean account with ease
- Customize your settings and menu with your favorite apps and tools
- Open two browsers on the panel at once for improved instruction

Adaptability

ActivPanel 9 helps schools provide students with optimal educational experiences in all learning environments—from in person to remote to hybrid to blended.

- Share lessons with remote and absent students through any platform
- Screen share in real time for hybrid and blended learning situations
- Collaborate and communicate in the classroom with Screen Share

Optimize your ActivPanel experience with Merlyn Mind

Delivering the most robust, seamless, and secure user experience, the award-winning ActivPanel offers features that respond to the unique needs of teachers, IT administrators, and school leaders... and now you can use Symphony Classroom with Merlyn, direct from the ActivPanel!

Extend the power of the ActivPanel in your classroom.

Merlyn: The digital assistant designed for teachers

Now teachers can access advanced AI technology to make everyday tasks easier. With the Symphony Classroom solution, powered by the digital assistant Merlyn, teachers are able to control devices, browsers, and apps using voice commands or a remote.

Teaching untethered

Symphony Classroom with Merlyn, created by the innovators at Merlyn Mind, allows teachers to move around the classroom freely, so you can interact with students, increase class participation, and create more dynamic and engaging lessons. Symphony with Promethean's ActivPanel is simple to set up and easy to use, so you can focus on what matters most – your students

"What my students really need is more of my time and attention"

How can Merlyn Help?

Merlyn helps you quickly and naturally control classroom technology, so you have more time to focus on your students.
