BEST PLUMBING SPECIALTIES

Curved Jaw Pliers

These curved jaw pliers feature low profile teeth which are designed to grip onto hard-to-hold and delicate-finish surfaces, like chrome, without damaging them. These are perfect for tightening, clamping, and turning round objects like pipes and nuts, as well as inserting and removing small screws or other parts behind pipes. Includes protective covers for the jaws.

- 9" Length
- Four adjustment points measuring: 3/4", 1-1/4", 2", 2-3/4"

#88094

Picture Hanging Kit

This kit contains an assortment of picture hangers, wire, and nails in various sizes. With 175 pieces, this provides enough material to complete multiple projects with varying needs. Everything comes housed in a durable and reusable container. .

#88088

Diverter Drain Tarp
