

## WIRELESS SOLUTIONS FOR EDUCATION

Kajeet is a leading provider of secure wireless connectivity solutions for education.

**Student Success.** Kajeet is committed to connecting every student to the online resources they need to succeed.

**CIPA-Compliant Filtering.** CIPA-compliant filters provide students with a safe, focused online learning experience.

**Compliance Administrator Visibility and Control.** The Kajeet Sentinel® platform enables administrators to track program success and control website access, data allocations, and more – all from an easy user interface.

**Lifetime Program Support.** A dedicated Kajeet Account Manager will be there every step of the way to ensure your program is a success.

SmartSpot®	SmartBus™	Connect Suite	LTE-Embedded Devices
Mobile hotspots for off-campus Internet access	Mobile or hard-installed router for WiFi access on the school bus	Campus-level solutions for prime and failover connectivity	Embedded devices for distance and virtual learning

All Kajeet solutions include Sentinel®, our award-winning cloud-based administrator platform.
