

A collection of various tools and maintenance supplies arranged on a white surface. The items include a red spray can of Loctite Tite Foam for gaps and cracks, a package of Crocodile brand disinfectant wipes, a pair of black gloves, a jar of White Lightning Heat Proof Grease, a Jam-Bar tool, a pair of pliers, a pair of wire cutters, a pair of scissors, a coiled black cable, and several red and blue plastic tools.

NEW ARRIVALS

BiX Pipe Cutter

The BiX® Pipe Cutter delivers fast, clean, and precise cuts, even in tight, hard-to-reach spaces. Engineered for comfort, durability, and efficiency, it features a 180° rotating blade system, integrated spare blades, and a secure locking mechanism for safe storage and operation. Premium surgical-grade steel blades provide long-lasting cutting performance without producing shavings, making it ideal for high-temperature plastic drainpipes, electrical conduits, soft plastic pipes, and sealing sleeves.

- For diameters from 3/4" to 2" and pipe wall thicknesses up to 3/32"

#10022

2" and 3" Universal Super Toilet Flapper

The Fluidmaster Universal 2" and 3" Super Flapper is the only convertible toilet flapper on the market, designed to fit both 2" and 3" flapper style toilets for a universal replacement eliminating guesswork. Featuring quick installation, an adjustable water-saving dial for customized flush performance & broad compatibility with most two-piece toilets.

Jam-Bar Toilet Bolt Lock Wrench

The Jam-Bar is a thin-blade wrench that locks onto 1/4" and 5/16" toilet bolts, preventing them from spinning while you are removing the nut. Made from durable tool steel, its innovative tooth design grips tighter as the bolt tries to turn, making toilet bolt removal faster and easier.

Loctite Tile Foam Sealant (12oz)

Advanced moisture-cured polyurethane formula expands to fill spaces, helping block air, moisture, and outdoor elements while improving insulation around gaps and cracks. With 4X the density of traditional foams, it delivers enhanced durability and strong adhesion to common building materials, including wood, concrete, stone, and metal. Once fully cured, the foam can be sanded and painted for a clean, finished appearance. The convenient straw applicator makes application quick and precise, providing dependable results on every job. pg. 13-17
