

What do you like the most about Accessit Library?

How easy it is to use. We also love the flexibility of it allowing us to use it as central hub for all our Library resources. We love that the system is integrated allowing us to make dashboards for whatever we need. Now we have a very interactive and lively place to showcase. We are EXTREMELY proud of what we have been able to create.

Jill Adler – Librarian, St. Anthony’s High School, New York

Flexible and configurable

Works for every type of school, campus and resource, integrating with virtually all IT systems.

Accessit One Search

Accessit provides a single discovery tool, extending any search far beyond the library catalog.

Engaging student experience

Accessit will motivate your students to be active participants in their own learning and discovery.

Exceptional customer support

Our support team are real people with library experience, eager to assist you.

Robust and reliable

The system runs itself with little need for IT intervention.
