

Contract 021.5B

Fiction vs Fact

"I thought you did Mold/Lead/Asbestos testing?"

We bring in Independent Hygienists for testing so that the results are unbiased.

"We got all the water sucked up so we don't need to worry about mold"

Molds can be found almost anywhere; they can grow on virtually any substance, providing moisture is present. There are molds that can grow on wood, paper, carpet, and foods.

"This is a newer building we don't have any lead paint, or Asbestos."

All public and commercial buildings, regardless of age or construction type, must be inspected for asbestos before any renovation or demolition activity in some states.
